

NOTICE OF RECEIPT OF A PERMIT APPLICATION FOR A CLASS II SOLID WASTE DISPOSAL FACILITY

Scepter, Inc. has applied to the Tennessee Department of Environment and Conservation (TDEC) Division of Solid Waste Management (DSWM) for a solid waste disposal facility permit modification to construct and operate a vertical expansion of the existing Class II landfill (IDL430000078). The facility is located in Humphreys County, at 1485 Scepter Lane, Waverly, Tennessee (latitude 36°4'6" N/longitude 87°56'33" W). The waste materials to be accepted will not change. They are classified as industrial waste generated from secondary aluminum processing at Scepter's Waverly, Tennessee operations.

Under State law, the applicant must obtain a modification of the existing facility permit before constructing or operating the proposed lateral expansion. DSWM has received a Part I Permit Application indicating Scepter, Inc.'s desire to obtain the required permit modification.

A complete permit application consists of both a Part I and a Part II, as described in Regulations Governing Solid Waste Processing and Disposal Facilities in Tennessee, Rule 0400-11-01-.02(3)(c). Upon receipt of a complete Part I and Part II application, DSWM will do an in-depth review to determine if the application meets the technical standards of the Regulations described in Tennessee Rule 0400-11-01-.04(9), Solid Waste Processing and Disposal. Once the technical review is completed, DSWM will make a tentative decision to either grant or to deny the permit and will issue a public notice of such decision. This second notice will provide the public at least 45 days to submit written comments on the proposed action and to request a public hearing (a public hearing may be announced in this second notice if there is already significant public interest). If a significant degree of public interest is found following the publication of this second notice, a public hearing will be scheduled, and a public notice issued at least 15 days before the hearing. After considering all comments received, the DSWM Director shall issue a final permit decision and a response to comments.
